

What's the Difference?

SOCIAL DISTANCING AND SELF-ISOLATION

Social Distancing

What is it? Staying away from people and public places to limit the spread of the virus.
Who should do it? Everyone.
For how long? Until further notice.

Self-Isolation

What is it? Not leaving your home or coming in contact with anyone.
Who should do it? People who have travelled outside of Canada, people who may have the virus or who have tested positive for the virus.
For how long? At least 14 days.
